

Recent Guidelines for the Diagnosis and Management of CMPA in Infants

- Latest recommendations have been published in the Archives of Disease in Childhood 2007 (Volume 92: pp 902-908): -
 - Vandenplas et al., 2007 and includes 8 European Authors: (Belgium; UK; France; Australia; Finland; Germany; Netherlands; Italy)
- Principle aims of this publication: -
 - To develop guidance for general paediatricians and primary care physicians to assist with the diagnosis and management of CMPA in breastfed and formula fed Infants
 - Guidelines were developed by discussion based on existing national recommendations and standards, clinical experience and evidence from scientific literature
